

INFORMATION FOR FOREIGN TRAINERS

From the first meeting of the Vincennes Winter Season - Wednesday October 28th, 2020 - it becomes an obligation for trainers to provide new information to the attention of the punters, when declaring a horse in a race.

This is the advice given by the trainer when doing the starting declaration of a in a race.

This information should be translated into the racing card as

- A green smiley :

this means that **all the parameters (settings)** are in place to consider the win in the race

- An orange smiley

this means that **several parameters (settings)** are met to consider the win in the race

- A red smiley

this means that **few parameters (settings)** are met to consider the win in the race

The opinion of the trainer is an obligation from the races dated October 28th, 2020 (for all the racetracks in France) and is given at the starting declaration date, under the sole responsibility of the trainer.

This opinion does not commit the SECF in any way whatsoever.

Trainers with an Infonet subscription will be able to make this declaration online.

Any declaration of starters sent by email or fax to the Racing Department of the SECF must, in addition to the usual information, include this new mention : a smiley green, orange or red.

Otherwise, the starting declaration will not be accepted.
